VIRGIN BRASS – STANDARD EN 1982

Virgin brass provides Lead Free Product which ensures less health hazard & very minimum chance of having leakage in the product body and long-lasting durability even in most salty water.

3 LAYER ELECTROPLATING

For the first time in the faucet industry of Bangladesh, the electroplating line is fully automated and the plating quality is consistent. Being highest in thickness value, 3 layer electroplating coating is well ahead of the international standard.

WORLD'S BEST AERATOR

The world's number one aerator manufacturer, Neoperl-USA's latest products are used for the Rosa. Therefore, soft water-bubbles make the water best to be experienced.

GREAT THICKNESS IN PVD COATING

0.3-0.6 microns depending on color, ensures the long lasting durability of PVD coating and great aesthetic looks.

WATER SAVING

Making every effort to get the product of the highest quality, Rosa faucet reaches its superiority when beauty and functionality give best with the best possible water saving.

CARTRIDGES UNMATCHED IN THE COUNTRY

The Eco volume override and hot limit adjustment rings define the Kerox Hungary cartridges as one of the best and leading in the world. Cartridges, which are the best in the industry, and no other competitor is using them in Bangladesh.
